WORK EXPERIENCE

Operations Data Analyst

Bank Of London

May 2025 - Dec 2025
London, United Kingdom

- **Reduced reporting turnaround time by 80%** by transforming manual Excel based reporting into automated Power BI dashboards, enabling near real time insights for decision-making.
- Collaborated with the engineering team to **integrate multiple data sources (Payments, Transaction Monitoring and CRM data) in Snowflake**.
- **Analyzed 10M+ transaction and CRM records** to identify systemic data quality issues and implemented remediation strategies, significantly improving data reliability across operational systems.
- **Engaged with senior stakeholders**, engineering and business teams to align reporting and analytics with strategic goals.

Digital Engineer Trainee

Ernst & Young

Jan 2025 - Mar 2025
Belfast, United Kingdom

- **Selected as one of 20 candidates** across the UK for the EY Digital Engineering Academy, organized by the Department for the Economy.
- Participating in EY's client-facing simulations, preparing for real-world industry scenarios through hands-on assessments and project work.
- Engage in a FRESH Design Thinking Course, enhancing problem-solving abilities and fostering innovation.

Restaurant Team Leader

KFC

Jan 2024 - Mar 2025
Belfast, United Kingdom

- **Led day-to-day operations** for a high-volume retail environment, **managing a team of 10+ staff** while ensuring adherence to operational, safety and quality standards.
- **Reduced weekly food waste by 18%** and achieved **stock availability of 98%** by conducting precise daily/weekly counts and auditing high-cost items.

EDUCATION

Master of Science in Business Analytics

Queen's University Belfast

Percentage: 59%
Sep 2022 - Dec 2023

PG Certificate Programme in Business Management

MICA, Ahmedabad

Grade:Pass
Jun 2021 - May 2022

Bachelor of Technology in Computer Engineering

University of Mumbai

CGPA:6.7/10
Jul 2015 - Dec 2019

SKILLS

- Languages** : Python (Pandas, NumPy, Matplotlib, Seaborn), SQL (Joins, CTEs, Views)
- Visualisation & Reporting** : Power BI (DAX, Power Query), Tableau, Excel
- ML & Analytics** : Predictive Modeling, Statistical Analysis, Exploratory Data Analysis
- Cloud Services** : Snowflake, AWS (S3, Athena, Glue, Quicksight)
- Business Skills** : Requirement Gathering, Stakeholder Management, Reporting/Dashboarding, Data Driven Decision Making

PROJECTS

Consumer Choice Modeling using Conjoint Analysis

- Performed **Conjoint Analysis** and **Principal Component Analysis (PCA)** to identify key factors influencing **laptop purchase decisions**.
- Reduced **576 product profiles to 20** using **fractional factorial design**, evaluating **Brand, Hard Drive, RAM, Screen Size, and Price**.
- Conducted **market simulation**, identifying **RAM (25%)** and **Screen Size (25.85%)** as the most influential attributes, with **Apple achieving 37% market preference**.

Interactive Coffee Sales Dashboard in Excel

- Built an **interactive Coffee Sales Dashboard in Excel** to analyze **50,000 sales transactions** and identify sales trends.
- Leveraged **Pivot Tables, Pivot Charts, Slicers, Timelines, XLOOKUP, and INDEX MATCH** for dynamic analysis and efficient data retrieval.
- Delivered actionable insights into **sales performance, top customers, and regional trends** through interactive visualizations.

NLP-Based Twitter Sentiment & Engagement Prediction

- Performed **sentiment analysis** and **engagement prediction** on **40,000 tweets** by Donald Trump using **NLP** techniques like **VADER** and **TextBlob**.
- Developed predictive models using **Random Forest, Linear Regression, and Naïve Bayes** to forecast tweet likes.
- **Insights:** Donald Trump's Twitter activity is highest before and after presidency indicating that he leveraged social media for publicity. Moreover, the most common phrases in viral tweets were "make America great again" and "fake news", using the public's patriotic sentiments to gain favour.

CERTIFICATIONS

AWS Certified: Data Engineer Associate

Mar 2026 - Mar 2029

Google Advanced Data Analytics Certificate (Coursera)

Jan 2025

PMI Certified: Project Management Ready

Nov 2024

Microsoft Certified: Azure Fundamentals

Oct 2024
